Advancing Rescue Technology

VIMPEX

Established in 1994 - VimpeX is a specialist supplier of Personal Protective Equipment (PPE) & Safety Equipment, Technical Rescue products and Lighting and Power Solutions to the Paramedic, Rescue, Police, Military and associated markets.

VimpeX only sell products we can repair and maintain. All staff are trained in correct and safe use, maintenance and repair of the products we sell. All products feature long warranties which are fully supported by VimpeX, its suppliers, its subsidiaries and its distributors. We take service and maintenance seriously and understand that professional products require professional support.

We like our products to be used for the purposes they were designed - that's to save people's lives and to make our users and the public safer. Our experience tells us that those trained in the use of the tools and products we sell utilise them more effectively, efficiently and most importantly safely.

As proud members of the Fire Industry Association, products distributed and manufactured by VimpeX adhere to the highest professional standards of safety and reliability.

TECHNICAL RESCUE

PARATECH

From vehicle lifting and stabilisation to whole building shoring, Paratech products outperform competitors' offerings when measured on ease of use, durability, flexibility and our lifetime guarantee.

Vimpex is exclusive supplier and service agent for Paratech's full range of Vehicle and Building Support Products. We have vast experience of the product range and the practical application of the products we supply.

PARATECH

MULTIFORCE LIFTING BAGS

Fire brigades across the UK use this unique and innovative product for lifting dangerous loads.

Smart design ensures that this system can get into the tightest spaces, while the innovative remote lifting base allows personnel to operate the device at a safe distance from the load.

Load drift is minimised and safety relief valves are integrated into the bag itself making over-inflation completely impossible.

The remote lifting base doubles as a storage device making it extremely easy to stow.

FEATURES

- Patented and unique operation delivers unsurpassed safety and performance
- Can slide into extremely narrow gaps (100 mm) such as under vehicles and other fallen objects
- Integrated trolley minimises need to carry
- 4:1 safety factor
- Lift capacity 28 metric tonnes

HFS - HYDRAULIC FUSION STRUT

Enables powered and controlled lifting via hand pump.

FEATURES

- Precise, powered, controlled lifting
- Compatible with Acme Struts
- 9 tonne maximum load
- 2:1 safety ratio

SUPPORTER VEHICLE STABILISER

The Supporter can be deployed to support vehicles, handling loads of up to 9 tonnes even at full extension.

FEATURES

- 9 tonne capacity at full extension
- Automatically retracting strapping
- Multigrip Head

RESCUE SUPPORT SYSTEMS

Paratech products are renowned for their versatility. Their well-specified Rescue Support Systems can be applied to shoring buildings, trench and tunnel rescue as well as being used with tripods, bipods and monopods.

A modest investment in additional accessories can boost the unit's versatility yet further, allowing it to be adapted to a multitude of rescue scenarios.

FEATURES

- Suitable for trench, tunnel and shaft rescue
- Adaptable for tripod, bipod and monopod applications
- A single kit can be adapted for a multitude of rescue scenarios

PARATECH MARINE DAMAGE CONTROL SYSTEM

The Paratech Damage Control System (DCS) brings maritime damage control shoring into the 21st century. Speed, strength, flexibility and capability are the hallmarks of Paratech's DCS. The system has been engineered to simplify the difficult task Damage Control Teams face in harsh and dangerous working environments. With the Paratech DCS you will achieve setup speeds never before seen with wood based systems.

RESCUE GUARDIAN

Ask for a demo of the new and revolutionary Guardian sensor. Constantly monitoring for movement during rescues.

SEARCH CAMERAS

The world's first wireless streaming search and rescue camera. Vimpex is proud to supply this effective and innovative product.

The First Look 360 captures a clear global image and delivers it remotely to an android phone or tablet for use in inaccessible spaces, dangerous environments and even underwater.

FIRSTLOOK 360 SEARCH CAMERA

Utilising a unique and patented combination of features, the FL360 is a truly revolutionary search camera. Able to be used in both wired and wireless modes, the camera has no moving parts but users are presented with a 'global' image which is manipulated on screen.

Two way communication is clear and intuitive. Able to be adapted for underwater use, the camera can be lowered into water for search and rescue operations.

The camera is useful for security and border control searches as the clarity of image is ideal for identifying threats and suspicious objects.

Police will also find the FL360 an indispensable search tool since it can be inserted into voids such as loft spaces and the scene viewed safely on the screen without risk to the user.

FEATURES

- A versatile product with advantages for many emergency services applications
- Clear, global image with two way communication
- Wireless and wired operation
- Can be used for underwater searches
- Great for security and policing work and search operations
- Ideal for safely investigating voids such as loft spaces and goods vehicles

PPV VENTILATION FANS

Big Fire high performance fans immediately ensure better visibility and lower temperatures inside the building which means fire fighting operations can be handled more quickly and safely.

- ✓ Compact and lightweight
- ✓ Range of fans for every operation
- ✓ Combustion engine is self-sufficient and powerful

BIG FIRE BATTERY POWERED FAN - HP18 IB+

New to Vimpex and to the UK is the Big Fire Battery Powered Fan - HP18 iB+

Thanks to its lightweight and powerful battery powered motor, the HP18 can run on full power for 85 minutes or as much as 9 hours on low output.

Able to be powered via mains input if required, the HP18 outperforms its rivals on all measures.

FEATURES

- Running time up to 9 hours
- 85 minutes run time on full power
- Charging time - 270 minutes (from empty)
- Weight 22.6 kg

BIG FIRE FANS

Big Fire produce fans for all applications from compact petrol powered PPV models to large trailer mounted options for use in tunnels, large buildings and industrial premises.

BIG FIRE & VENTILATION

HP18 AND HP21

High Performance Fans with options for petrol or electric motors.

FEATURES

- High power
- Extremely effective ventilation
- Choice of sizes
- Max weight 45kg

BIG FIRE & VENTILATION SMOKE BLOCKING CURTAIN

A very popular smoke and heat management accessory. Rapidly deployed in the door frame of fire affected rooms to reduce spread of smoke into escape routes and search zones.

FEATURES

- Keeps escape routes smoke-free
- Improved safety for firefighting operations
- Quick and easy deployment

TORCHES AND LIGHTING

Every Adaro torch features advanced optics, high quality engineering and has ATEX approval.

Emergency services in the UK and overseas trust Adaro torches for their reliability and performance.

Battery powered scene lighting products for emergency services and the military.

ADARO ADALIT L-5000/L-5000 EX1

The L-5000 is the lightest, smartest and brightest hand torch on the market. Featuring a swivelling head, digital display and complex optics. It is suitable for work in the toughest conditions.

FEATURES

- Rechargeable, handheld and lightweight
- 3 different intensity settings
- Head rotates to three different positions
- 110,000 candle power
- Weight: 1.1 Kg
- Swivelling head: -30° / 0° / 30° / 60° / 90°

ADARO ADALIT L-90 RIGHT ANGLED ALKALINE TORCH

New from Adalit is the L-90 right angled alkaline torch. Light, small and easy to operate. It incorporates our famous LED Engine optics, including 2 LEDs (spot, flood and step light options). It easily adapts to the firefighter's tunic. It is certified ATEX zone 0 for use in explosive atmospheres.

NEW

ADARO ADALIT ADALIT L-30

The revolutionary helmet torch. Lighter, smaller and more powerful than its predecessor, the rechargeable helmet torch L-30 is the firefighter's indispensable work tool. It incorporates a dual light system (main beam and step light) and two red LED beacons, making it the safest on the market. It is certified ATEX ZONE 0/20 for use in explosive atmospheres

NEW

ADARO ADALIT L-3000/L-3000 POWER

A range of high performance professional safety torches that combine elegant design with high intensity LEDs, revolutionary optics and a large digital display.

FEATURES

- LED Engine technology with a step light system
- 'Booster' function to illuminate long distances with intense beam
- Digital display - battery level indication in hours and minutes

ADARO ADALIT L-5 POWER

Both the L5 Plus and L5R Plus can be used either handheld or helmet-mounted - each set includes a rotating bracket that allows the light to be directed through 360°. Using high-intensity LEDs and a bright LED 'back light', the R5 series is compatible with the vast majority of firefighting and rescue helmets.

FEATURES

- Rechargeable Li-Ion and Alkaline versions
- Features bright red LED 'back light' for easy identification of colleagues
- ATEX Approved for hazardous area use

SCANGRIP

NOVA 4K and 6K C+R are universal all-around work light both rechargeable and with cable (DUAL SYSTEM) providing you endless application possibilities in every working environment.

FEATURES

- Extra bright
- LED powered - using less energy
- Rechargeable
- Unique converter allows for low cost upgrade from existing lights

HYDRAULIC RESCUE TOOLS

Established 1928
Ogura®

Ogura were the first manufacturer in the world to develop a full range of truly portable, lightweight, battery-powered hydraulic cutting, spreading and lifting tools.

They are field-proven throughout Europe and are used by fire & rescue, police and the military for a wide range of applications where portability, access and speed of deployment are vital.

All Ogura tools use the patented 400 bar pump which gives incredible power-to-weight performance, despite the sleek, compact design. Powered by the excellent Makita Li-ion 18 V battery pack, Ogura tools are the only manufacturer licensed to use Makita motors and batteries.

As European distributor, stockist and service agent for Ogura, customers can be assured that spares and repairs are readily available from Vimpex.

Established 1928
Ogura®

RP SERIES

The RP Series by Ogura is a new range of light rescue tools that offer total operating freedom.

The range has been developed for easy operation and maintenance and offers the end-user a flexible and powerful solution in rescue situations.

The RP Series range of tools are fitted with features to ensure the safety of the user.

FEATURES

- Power unit or head can be changed at any time
- One power unit can manage all heads
- Compact and lightweight but powerful
- Field proven Makita 18V brushless motor

RP-S505 THE SPREADER

Compact, lightweight, powerful. The RP-S505 is 35% more powerful than its predecessor but weighs much less. The new ergonomically designed Awethumb™ controller allows easy control whilst the Alligator Tips™ provided as standard can easily grip convex surfaces for crushing/squeezing.

FEATURES

- Standard attached Alligator Tips™
- Equipped with Awethumb™ controller
- Fitted with 360° handles

RP-V250 THE COMBI TOOL

Ideal tool for using in common spaces due to the compact design of the arm.

FEATURES

- Replaceable cutting-edge inserts
- Equipped with Awethumb™ controller
- Fitted with 360° rotating handle

RP-C160 THE C-CUTTER

Can cut 32mm mild steel round bar with blades that provide safe and effective cutting.

FEATURES

- Replaceable cutting-edge inserts
- Equipped with Awethumb™ controller
- Fitted with 360° rotating handle

RP-R370 THE RAM

Lightweight and powerful with enough force to push, spread and support a motor vehicle frame. Two optional extension rods allow for different rescue situations.

FEATURES

- Fitted with fixed handle for easy carrying and positioning
- Produced with detachable four fingers claw for optimum gripping/supporting

RP-MBV THE POWER UNIT

Equipped with easy to use quick connect coupling for safe and fast head changing. The compact and powerful power unit is used to operate all the heads of the RP Series.

FEATURES

- Uses latest 18v brushless motor
- 360° rotating coupling

HRS MODULAR SYSTEM

A portable, lightweight, compact and extremely versatile series of cutting, spreading and forcible entry tools.

Spreader or cutting heads can be connected either directly to the pump or via a hydraulic hose, making the HRS System excellent for rapid response vehicles, remote locations or confined space rescue scenarios.

UK MOD uses the system for self rescue from vehicles. UK USAR use it for collapsed building work and overseas missions. Fire and rescue teams at hundreds of airports Europe wide also carry the system for aircraft crash scenarios.

FEATURES

- Dedicated tools connect either directly to pump or via hose
- Unique flexibility via our modular system
- Very low maintenance requirements

HSC-20BLN, 25BLN & 38BL BAR CUTTERS

Using special carbide tipped cutting discs, the only non-hydraulic rescue tool from Ogura cuts with virtually no sparks or heat. Specified by all UK Police Public Order Protestor Release teams, the HSC tools are an excellent compliment to other Ogura rescue tools.

FEATURES

- Uses the same batteries and chargers as other Ogura tools
- Virtually spark-free cold cut with advanced carbide blades
- Cuts up to 38 mm bar
- Great for cutting padlocks, chain, grilles and D-Locks

MANUAL COMBI TOOL

Immediately deployed, hand operated combi-tool for confined space, remote rescue and hazardous area operations.

FEATURES

- Double handle for easy operation
- Unique replaceable blade chips
- Completely self-contained
- Shares many features with BC-300
- Lightweight and very portable

ORC BAR CUTTERS

For rescuers requiring a dedicated bar cutter to ease the extrication of casualties from collapsed buildings. Used by UK Government National Resilience for USAR work, UK Police for protester release operations and many constabularies for cutting chains, padlocks and railings.

FEATURES

- Cuts up to 20 mm rebar
- Excellent for clearing illegally parked bicycles
- Blades have four cutting surfaces to increase blade life and minimise costs

BC-300BL COMBINATION TOOL

At only 14 kg, the BC-300BL is the most portable tool of its type available, able to cut 25 mm bar at up to 40 tonnes and spread at a force of 58 tonnes.

FEATURES

- Most portable battery powered Combi-Tool
- Uses excellent Makita batteries and motors to power 440 bar pump
- Fully rotating handle eases operation in tricky situations
- Integrates new 'Awthumb'™ controller

POWERED RESCUE TOOLS

As well as being a reliable and respected supplier of Makita products to the UK emergency services sector, Vimpex is an official Makita service agent, so our customers can be confident that we are able to support all Makita products for the lifetime of the tool.

The majority of tools that we supply are powered by Makita's 18 V Li-ion battery pack which has been proven time and again to outperform other Li-ion packages.

VIMPEX IMPACT WRENCH KIT

Incorporating a Makita Impact Wrench and a specially sourced socket set kit, VimpeX's impact wrench kit is housed in a compact but sturdy carry case with the contents held within routed foam inserts.

FEATURES

- Perfect for door, bonnet and seat removal during vehicle extrication
- All items held safely in routed foam inserts
- Includes Makita impact wrench & special socket set

ALSO AVAILABLE FOR OTHER
POWER TOOL BRANDS

MAKITA POWER TOOLS

Any Makita power tool using 18V Li-ion batteries is a great supplement to the Ogura range owing to the shared battery.

By adding an impact wrench kit, reciprocating saw or hammer drill, for very little extra outlay, teams can significantly broaden their rescue capabilities.

TWIN 18/36V BRUSHLESS
TOOLS NOW AVAILABLE

RESCUE ACCESSORIES

RESCUE ACCESSORIES

A series of complementary products that make rescuers and emergency service workers' jobs that bit easier.

We are always looking for unique and useful products to add to our main product lines and are often asked to source 'specials' by regular customers.

ROPERATCHET TIE DOWNS

Patented non-slip pull through ratchet and rugged construction lets you secure a wide range of objects and loads.

FEATURES

- Secure, safe and quick to deploy
- 4mm (35 kg) to 14 mm (205 kg) versions available
- Tested by the Health and Safety Laboratory for safety and functionality

FIRST RESPONDER TOOL TRAYS

Designed to be installed on the vehicle by being 'dropped' into existing trays. Manufactured from chemical and oil resistant foam, the trays are routed according to customer specification.

Ensures all tools and valuable batteries are easily identified and counted in after use.

FEATURES

- Helps manage tools and batteries on scene
- Routed from oil and chemical resistant foam
- Drops into vehicle tool trays for quick installation

UNIQUE VIMPEX SUPPORT PACKAGES

Unlike other Makita dealers, VimpeX can provide a unique after sales support service.

- ✓ Approved service centre status
- ✓ RFID Tracking Tags
- ✓ 5 year warranty

PERSONAL PROTECTIVE EQUIPMENT

For over 35 years, Pacific Helmets has been designing and manufacturing helmets based around three fundamental philosophies - Safety, Comfort and Quality.

Vimpex are the exclusive UK distributor and service partner for Pacific Helmets. We are a trusted supplier to many public sector bodies including NHS Ambulance Trusts, UK Fire & Rescue and several Police Constabularies.

Our in-house servicing facility can customise helmets to accommodate special labelling, decals and sizing adjustments.

R6 RESCUE HELMET

The Pacific R6 rescue helmet range represents the most versatile and configurable helmet of its type available and offers the most up-to-date form of head protection in a very comfortable, lightweight and wearable package. The complete Tri-Agency helmet solution...the go-to choice of head protection for Technical Rescue, Ambulance/ Paramedic and Police Forces across the UK.

- FEATURES
- Manufactured using Kevlar
 - Lightweight fibreglass reinforced composite shell
 - UV-resistant hi-gloss paint finish
 - Composite Construction means that shells outlast thermoplastic helmets

→ Good balance giving wearer comfort

22 COLOURS AVAILABLE TO CHOOSE FROM

- EN 12492
- EN 16471
- EN 16473
- EN 397
- EN 166
- PAS 028

A7A AMBULANCE/ PARAMEDIC HELMET

The A7A has become established and relied upon as the benchmark safety helmet in the UK's NHS and private paramedic sector. The combination of safety, excellent balance and modern looks, as well as VimpeX's proven supply and support, makes the A7A the helmet of choice for paramedics.

- FEATURES
- The helmet of choice for NHS paramedics
 - Kevlar reinforced shell is lightweight but extremely durable
 - Offers paramedics the same level of impact protection and head coverage as fire & rescue colleagues
 - Can be customised with rank, job roles and other decals

- EN 443:1997
- EN 166

PERSONAL PROTECTIVE EQUIPMENT

FAL provide a wide range of high-quality boots for firefighters and rescue personnel, including the world's first 'fabric boot'. Their products are designed to be reliable and comfortable in all situations, thanks to their lightweight, breathable construction and their flexible, high shock-absorbing soles.

VOLCANO

Safety boot for firefighters, the whole boot is washable. Featuring a fire and water resistant PBI® fabric and microfiber upper.

FEATURES

- Toe cap: Composite Vincap® covered by external rubber protection.
- Threads: Double seam made of Kevlar, water and fire resistant.
- Reflective parts: Fire resistant 3M® reflector, high visibility.

EN 15090

VOLCANO BOA

Safety boot for firefighters, the whole boot is washable. Featuring a fire and water resistant PBI® fabric and microfiber upper.

FEATURES

- Toe cap: Composite Vincap® covered by external rubber protection.
- Threads: Double seam made of Kevlar, water and fire resistant.
- Reflective parts: Fire resistant 3M® reflector, high visibility.

EN 15090

PATROL HIGH

Utility boot for professional use featuring a breathable, waterproof and abrasion resistant fabric upper.

FEATURES

- Neck lining: High breathability and abrasion resistance fabric. Foamed. 100% PES.
- Inside lining: Gore-Tex®, waterproof and breathable.
- Closing system: Waterproof lacing system and reinforced non-metallic hooks.

EN 20347

TORCH BOA

Safety Boot for all fire fighting and rescue activities (Forest, Structural, Urban, etc.). Featuring full black grain leather. Water resistant, breathable and excellent abrasion resistant upper.

FEATURES

- Reinforced Vincap® toe.
- Double Kevlar threads
- Back and side fire resistant 3M® strip.

EN 15090

DRAGON

OGURA FORCIBLE ENTRY TOOLS

Combining Ogura's battery powered hydraulic pump with the HRS Door Opener and Stubby Cutter makes for a great forcible entry kit.

FEATURES

- Entire kit can be housed in a single carry case
- Powerful door opening tools - up to 4 tonnes
- Choice of opening widths - 70 or 205 mm
- Uses field-proven Makita Li-ion batteries
- Stubby Cutter can cut chains, padlocks, grilles and hinges

RESCUE ACADEMY

Thanks to our partnership with key training providers, VimpeX is able to offer very high quality, accredited training courses in a variety of technical rescue disciplines. These courses not only support the safe and effective use of the products we supply but also allow us to provide very competitively-priced training delivered by UK experts to regions that do not have the budget to send their personnel to the UK for tuition.

VimpeX also works closely with International Road Rescue & Trauma Consultancy Ltd (IRRTC) as well as Technical Rescue International who are an international team that specialises in fire service rescue operations and trauma care training.

The courses that IRRTC run, support the safe and effective use of the products that we supply and are delivered by UK experts in the field to a worldwide audience.

- **Be trained by the world's best rescue experts**
- **Learn with your assets and equipment thereby gaining immediate value without further outlay**

SUPPORTING OUR CUSTOMERS WAY BEYOND PURCHASE

At VimpeX, we consider after sales service to be a vital part of our business. We appreciate that the equipment used by first responders must be maintained in perfect working order. That is why we have established a purpose-built and fully-equipped workshop and gained accreditation as service agents for Ogura, Makita, Agility (First Look 360), Pacific Helmets and Paratech.

WARRANTIES

When you buy a product from VimpeX, we honour the manufacturer's warranty, and in many cases offer a warranty that exceeds it (see individual products for details). If you need to return a product to us, we will arrange collection and re-delivery, or if necessary carry out maintenance or repairs on site, usually within 72 hours, depending on the availability of parts.

SERVICING

We follow a watertight procedure for logging and tracking your product until it is returned to you. We provide servicing for Ogura Hydraulic Rescue & Industrial tools, Agility search and rescue camera systems, Paratech Rescue, Shoring and Air Lifting Bags and Pacific Helmets.

DOCUMENTATION

We also maintain a database of all the works, servicing and repairs done to your tools, and we will always be able to use this resource to help you track the history of each piece of equipment sourced from VimpeX. It is these processes that helped us to secure ISO 9001 certification, demonstrating excellence in documenting our processes, among other management standards.

Our product ranges assist workers in exceptional scenarios and we feel a duty to do what we can to ensure our products and services inspire trust and confidence. Excellence in customer service is a value at the core of our business and we will always endeavour to provide quick and efficient servicing that is convenient for our customers.
