TECHNICAL DATASHEET

FIRE-CRYER® MINI

VIMPEX

The EN 54-3 approved Mini Fire-Cryer Plus® is a slimline base sounder for discreet mounting under fire detectors. It requires no special wiring and can be retrofitted to existing installations. It is fully synchronised and has an exceptionally low current consumption.

The units can be use as a replacement for electronic sounders or bells to broadcast a clear message for any situation - evacuation, chemical spills, access message, security or general information. A cover plate is available for wall mounting.

Where staged alarm or phased evacuation is required message controllers can be used to allow up to seven different messages to be broadcast across multiple zones on just 2 wires.

Choose from industry designed message sets or bespoke where required.

Specification

Operating Voltage	20-28 V dc
Current @ 24 V dc, Peak/Avg***	27/20 mA
Effective Sound Output (Typical)- Alert Fast Sweep tone to BS5839- Voice	90 dB (A) *86 dB (A)**
Volume Adjustment from minimum output to maximum output - 18 dB(A)	72 to 90 dB(A)
Weatherproofing	Internal use only
Housing Material	ABS
Temperature Range	-10°C to +55°C
Colour	White
Connections	Screw TB 1.5 mm2

Extinguishant Interface for use with Gas extinguishant panels

Features

- / Sound Output 90 dB(A)
- / Ultra-slim base sounder to fit industy standard detector
- / Low current average 20 mA
- / No special wiring, easily retro-fitted
- / Fully synchronised over multi-zones
- / Suitable for ceiling or wall mounting
- Choose from industry designed message sets or bespoke where required

Approvals

Note:

*Tone output may vary depending on chosen sound **Voice output may vary due to the nature of human speech

speech ***Current consumption may change due to the nature of human speech
